

Raising Awareness

“I didn’t know children could get cancer in their eyes - if I had, I could have got help sooner.”

In the UK today, most parents, teachers, doctors and health visitors don’t know about retinoblastoma either. The Childhood Eye Cancer Trust is working hard to change that – and you can help. Here are some ideas:

Leaflet displays in local health centres, sports venues, nurseries, libraries. Ask us for leaflets, or artwork can be downloaded from our website if you can get your own printed.

Facebook and Twitter can be a great way to spread the news quickly.

Collecting tins showing the signs in local shops, post offices, pubs, garages etc.

Talk to local community and faith groups such as Rotary Clubs, the WI, parent and toddler meetings. We have a ready made presentation if you need it and can give you hints and tips if you are unfamiliar with public speaking.

"I thought it was just a trick of the light – now I know better."

Whatever you can do, whoever you can tell, it will make a difference! When you are ready, please go to our website www.chect.org.uk, or call the office on 020 7377 5578

Out and About

Stalls at local fetes

Publicity at fundraising events

Telling your story to the local newspaper and radio. We can help you through the process.

I spy with my little eye something beginning with C ...

Tell your family and friends to download our simple fact sheet which will tell you what to look out for.
